Fullstack Developer. Systems Engineering student. Enthusiast in the world of computing and persistent in creating tools for the improvement and optimization of systems.

PROFESSIONAL EXPERIENCE

CoPres SAS System

IT Assistant

Pasto, Nariño

November 2024 – December 2024

- Developed modules for a unified platform of components and tools for visualizing statistical graphs using the Svelte framework.
- Provided technical and administrative support in the IT department, including software and hardware configuration and maintenance.
- Implemented solutions for system issues and handled requests related to the developed modules.

University of Nariño

Intern at the Dean's Office of the Faculty of Engineering

Pasto, Nariño

August 2024 – August 2026

- Software development as a graduation project using NextJS (an open-source React-based framework) for the frontend, and NestJS with PostgreSQL for the backend.
